PRESS RELEASE

CITY OF SALLISAW LAUNCHES NEW WEATHER RADAR CHANNEL ON DIAMONDNET

--For Immediate Release--

Sallisaw, Oklahoma (June 21, 2007, 2007) – The City of Sallisaw has announced that it has launched a new weather radar channel on DiamondNet channel 65. This channel is available to all subscribers of DiamondNet and allows its customers to view accurate, uninterrupted, up to the minute radar images of the surrounding area. In addition to the radar, the site also broadcasts around the clock weather updates from the National Weather Service.

Using software provided by Storm Predator, DiamondNet now has access to radar images from Fort Smith, Arkansas. “This exclusive service provided by DiamondNet will be of great use during periods of severe weather,” said Danny Keith, DiamondNet’s Network Operations Manager. “Our customers will be able to turn to channel 65 during any time of the day or night and see current weather conditions.”
